### **PSYCHOTHERAPIST-PATIENT SERVICES AGREEMENT**

Welcome to my practice. This document (the Agreement) contains important information about my professional services and business policies. It also contains summary information about the Health Insurance Portability and Accountability Act (HIPAA), a new federal law that provides new privacy protections and new patient rights with regard to the use and disclosure of your Protected Health Information (PHI) used for the purpose of treatment, payment, and health care operations. HIPAA requires that I provide you with a Notice of Privacy Practices (the Notice) for use and disclosure of PHI for treatment, payment and health care operations. The Notice, which is available on my website ([aliciasnow.com](http://aliciasnow.com)), explains HIPAA and its application to your personal health information in greater detail. The law requires that I obtain your signature acknowledging that I have provided you with this information at the end of this session. Although these documents are long and sometimes complex, it is very important that you read them carefully before our next session. We can discuss any questions you have about the procedures at that time. When you sign this document, it will also represent an agreement between us.

### **PSYCHOLOGICAL SERVICES**

Psychotherapy is not easily described in general statements. It varies depending on the personalities of the psychologist and patient, and the particular problems you are experiencing. There are many different methods I may use to deal with the problems that you hope to address. Psychotherapy is not like a medical doctor visit. Instead, it calls for a very active effort on your part. In order for the therapy to be most successful, you will have to work on things we talk about both during our sessions and at home.

Psychotherapy can have benefits and risks. Since therapy often involves discussing unpleasant aspects of your life, you may experience uncomfortable feelings like sadness, guilt, anger, frustration, loneliness, and helplessness. On the other hand, psychotherapy has also been shown to have many benefits. Therapy often leads to better relationships, solutions to specific problems, and significant reductions in feelings of distress. But there are no guarantees of what you will experience.

Our first few sessions will involve an evaluation of your needs. By the end of the evaluation, I will be able to offer you some first impressions of what our work will include and a treatment plan to follow, if you decide to continue with therapy. You should evaluate this information along with your own opinions of whether you feel comfortable working with me. Therapy involves a large commitment of time, money, and energy, so you should be very careful about the therapist you select. If you have questions about my

procedures, we should discuss them whenever they arise. If your doubts persist, I will be happy to help you set up a meeting with another mental health professional for a second opinion.

## **MEETINGS**

**In order to schedule the first appointment, you will need to login to your account and place a credit/debit card on file. A charge of \$25 will be processed and applied to your first session. If you do not cancel with 24 hours notice or do not show for the appointment, you will be charged the remaining \$200. \_\_\_\_\_ Initial**

I normally conduct an evaluation that will last from 2 to 4 sessions. During this time, we can both decide if I am the best person to provide the services you need in order to meet your treatment goals. If psychotherapy is begun, I will usually schedule one 45-minute session (one appointment hour of 45 minutes duration) per week at a time we agree on, although some sessions may be longer or more frequent. **Once an appointment hour is scheduled, you will be expected to pay for it unless you provide 24 hours advance notice of cancellation unless we both agree that you were unable to attend due to circumstances beyond your control. It is important to note that insurance companies do not provide reimbursement for cancelled sessions.**

## **PROFESSIONAL FEES**

The charge for the initial session is \$225 and the session fee thereafter is \$200. In addition to weekly appointments, I charge this amount for other professional services you may need, though I will break down the hourly cost if I work for periods of less than one hour. Other services include report writing, telephone conversations lasting longer than 3 minutes, preparation of records or treatment summaries, and the time spent performing any other service you may request of me will be billed at \$4.44 per minute during regular business hours. Phone calls/emergency sessions after hours and on weekends will be billed at the rate of \$6.66 per minute. If you become involved in legal proceedings that require my participation, you will be expected to pay for all of my professional time, including preparation and transportation costs, even if I am called to testify by another party. Because of the difficulty of legal involvement, I charge \$400 per hour for preparation and attendance at any legal proceeding.

## **CONTACTING ME**

The best way to communicate with me is by logging into your account and sending an email. Due to my work schedule, I am often not immediately available by telephone. While I am usually in my office between 9 AM and 5 PM, I probably will not answer the phone when I am with a patient. When I am unavailable, my telephone is answered by voice mail that I monitor frequently. I will make every effort to return your call on the same day you make it, with the exception of weekends and holidays. If you are difficult to reach, please inform me of some times when you will be available. If you are unable to reach me and feel that you can't wait for me to return your call, contact your family physician/psychiatrist or the nearest emergency room and ask for the psychologist on call. If I will be unavailable for an extended time, I will provide you with the name of a colleague to contact, if necessary.

You may send me email through [TherapyAppointment.com](http://TherapyAppointment.com) but please do not email my yahoo account. This is not HIPAA compliant. Texting is not HIPAA compliant and I will not be able to respond if you send a text. If you text to cancel an appointment, I will not know who is trying to cancel and you will be charged for the appointment. \_\_\_\_\_ **Initial**

It is very important that you save your login credentials. Forgetting them will not be a valid reason for failing to cancel an appointment. Your initials here acknowledge that you have recorded your login and password in a secure location. Additionally, your initials indicate understanding of the Cancellation and Electronic Communication Policies. \_\_\_\_\_ **Initial**

### **LIMITS ON CONFIDENTIALITY**

The law protects the privacy of all communications between a patient and a psychologist. In most situations, I can only release information about your treatment to others if you sign a written Authorization form that meets certain legal requirements imposed by HIPAA. There are other situations that require only that you provide written, advance consent. Your signature on this Agreement provides consent for those activities, as follows:

- I may occasionally find it helpful to consult other health and mental health professionals about a case. During a consultation, I make every effort to avoid revealing the identity of my patient. The other professionals are also legally bound to keep the information confidential. If you don't object, I will not tell you about these consultations unless I feel that it is important to our work together. I will note all consultations in your Clinical Record (which is called "PHI" in my Notice of Psychologist's Policies and Practices to Protect the Privacy of Your Health Information).
- Disclosures required by health insurers or to collect overdue fees are discussed elsewhere in this Agreement.
- If a patient seriously threatens to harm himself/herself, I may be obligated to seek hospitalization for him/her, or to contact family members or others who can help provide protection. Texas law provides that a professional may disclose confidential information only to medical or law enforcement personnel if the professional determines that there is a probability of imminent physical injury by the patient to the patient or others, or there is a probability of immediate mental or emotional injury to the patient.

There are some situations where I am permitted or required to disclose information without either your consent or Authorization:

- If you are involved in a court proceeding and a request is made for information concerning your diagnosis and treatment, such information is protected by the psychologist-patient privilege law. I

cannot provide any information without your (or your legal representative's) written authorization, or a court order. If you are involved in or contemplating litigation, you should consult with your attorney to determine whether a court would be likely to order me to disclose information.

- If a government agency is requesting the information for health oversight activities, I may be required to provide it for them.
- If a patient files a complaint or lawsuit against me, I may disclose relevant information regarding that patient in order to defend myself.
- If a patient files a worker's compensation claim, I must, upon appropriate request, provide records relating to treatment or hospitalization for which compensation is being sought.

There are some situations in which I am legally obligated to take actions, which I believe are necessary to attempt to protect others from harm and I may have to reveal some information about a patient's treatment. These situations are unusual in my practice.

- If I have cause to believe that a child under 18 has been or may be abused or neglected (including physical injury, substantial threat of harm, mental or emotional injury, or any kind of sexual contact or conduct), or that a child is a victim of a sexual offense, or that an elderly or disabled person is in a state of abuse, neglect or exploitation, the law requires that I make a report to the appropriate governmental agency, usually the Department of Protective and Regulatory Services. Once such report is filed, I may be required to provide additional information.
- If I determine that there is a probability that the patient will inflict imminent physical injury on another, or that the patient will inflict imminent physical, mental or emotional harm upon him/herself, or others, I may be required to take protective action by disclosing information to medical or law enforcement personnel or by securing hospitalization of the patient.

If such a situation arises, I will make every effort to fully discuss it with you before taking any action and I will limit my disclosure to what is necessary.

While this written summary of exceptions to confidentiality should prove helpful in informing you about potential problems, it is important that we discuss any questions or concerns that you may have now or in the future. The laws governing confidentiality can be quite complex, and I am not an attorney. In situations where specific advice is required, formal legal advice may be needed.

### **PROFESSIONAL RECORDS**

You should be aware that, pursuant to HIPAA, I keep Protected Health Information about you in two sets of professional records. One set constitutes your Clinical Record. It includes information about your reasons for seeking therapy, a description of the ways in which your problem impacts on your life, your diagnosis,

the goals that we set for treatment, your progress towards those goals, your medical and social history, your treatment history, any past treatment records that I receive from other providers, reports of any professional consultations, your billing records, and any reports that have been sent to anyone, including reports to your insurance carrier. Except in unusual circumstances that involve danger to yourself and others, you may examine and/or receive a copy of your Clinical Record if you request it in writing. You should be aware that pursuant to Texas law, psychological test data are not part of a patient's record. Because these are professional records, they can be misinterpreted and/or upsetting to untrained readers. For this reason, I recommend that you initially review them in my presence, or have them forwarded to another mental health professional so you can discuss the contents. In most circumstances, I am allowed to charge a copying fee of \$15 per page. The exceptions to this policy are contained in the attached Notice Form. If I refuse your request for access to your Clinical Record, you have a right of review, which I will discuss with you upon your request.

In addition, I also keep a set of Psychotherapy Notes. These Notes are for my own use and are designed to assist me in providing you with the best treatment. While the contents of Psychotherapy Notes vary from client to client, they can include the contents of our conversations, my analysis of those conversations, and how they impact on your therapy. They also contain particularly sensitive information that you may reveal to me that is not required to be included in your Clinical Record. These Psychotherapy Notes are kept separate from your Clinical Record. While insurance companies can request and receive a copy of your Clinical Record, they cannot receive a copy of your Psychotherapy Notes without your signed, written Authorization. Insurance companies cannot require your Authorization as a condition of coverage nor penalize you in any way for your refusal. You may examine and/or receive a copy of your Psychotherapy Notes unless I determine that release would be harmful to your physical, mental or emotional health.

### **PATIENT RIGHTS**

HIPAA provides you with several new or expanded rights with regard to your Clinical Record and disclosures of protected health information. These rights include requesting that I amend your record; requesting restrictions on what information from your Clinical Record is disclosed to others; requesting an accounting of most disclosures of protected health information that you have neither consented to nor authorized; determining the location to which protected information disclosures are sent; having any complaints you make about my policies and procedures recorded in your records; and the right to a paper copy of this Agreement, the attached Notice form, and my privacy policies and procedures.

### **MINORS & PARENTS**

Patients under 18 years of age who are not emancipated and their parents should be aware that the law may allow parents to examine their child's treatment records. However, if the treatment is for suicide prevention, chemical addiction or dependency, or sexual, physical or emotional abuse, the law provides that parents may not access their child's records. For children between 16 and 18, because privacy in psychotherapy is often crucial to successful progress, particularly with teenagers, it is my policy to request an agreement from the patient and his/her parents that the parents consent to give up their access to their

child's records. If they agree, during treatment, I will provide them only with general information about the progress of the child's treatment, and his/her attendance at scheduled sessions. Any other communication will require the child's Authorization, unless I feel that the child is in danger or is a danger to someone else, in which case, I will notify the parents of my concern. Before giving parents any information, I will discuss the matter with the child, if possible, and do my best to handle any objections he/she may have.

### **BILLING AND PAYMENTS**

You will be expected to pay for each session at the time it is held, unless we agree otherwise. Payment schedules for other professional services will be agreed to when they are requested.

### **INSURANCE REIMBURSEMENT**

In order for us to set realistic treatment goals and priorities, it is important to evaluate what resources you have available to pay for your treatment. If you have a health insurance policy, it will usually provide some coverage for mental health treatment. I will be considered an out of network provider and I will not enter into single case agreements with your insurance company. You are responsible for full payment of my fees. It is very important that you find out exactly what mental health services your insurance policy covers. I accept payment in the form of cash, checks, and credit/debit cards.

You should carefully read the section in your insurance coverage booklet that describes mental health services. If you have questions about the coverage, call your plan administrator. Of course, I will provide you with whatever information I can based on my experience and will be happy to help you in understanding the information you receive from your insurance company.

Due to the rising costs of health care, insurance benefits have increasingly become more complex. It is sometimes difficult to determine exactly how much mental health coverage is available. "Managed Health Care" plans such as HMOs and PPOs often require authorization before they provide reimbursement for mental health services. These plans are often limited to short-term treatment approaches designed to work out specific problems that interfere with a person's usual level of functioning. It may be necessary to seek approval for more therapy after a certain number of sessions. While much can be accomplished in short-term therapy, some patients feel that they need more services after insurance benefits end. Some managed-care plans will not allow me to provide services to you once your benefits end. If this is the case, I will do my best to find another provider who will help you continue your psychotherapy.

You should also be aware that your contract with your health insurance company requires that I provide it with information relevant to the services that I provide to you. I am required to provide a clinical diagnosis. Sometimes I am required to provide additional clinical information such as treatment plans or summaries, or copies of your entire Clinical Record. In such situations, I will make every effort to release only the minimum information about you that is necessary for the purpose requested. This information will become part of the insurance company files and will probably be stored in a computer. Though all insurance companies claim to keep such information confidential, I have no control over what they do with it once it is in their hands. In some cases, they may share the information with a national medical information databank. I will provide you with a copy of any report I submit, if you request it. By signing this Agreement, you agree that I can provide requested information to your carrier.

**Signature Page**

**Your signature below indicates that you have:**

1. read the information in **PSYCHOTHERAPIST PATIENT SERVICES AGREEMENT** and agree to abide by its terms during our professional relationship.
2. placed your initials in designated places acknowledging your understanding of the Cancellation, Electronic Communication, and Payment policies.
3. received the HIPAA Notice Form described above and can find another copy on [aliciasnow.com](http://aliciasnow.com).
4. Safeguarded your login and password to avoid \$5 charge to have it reset.

**Adolescent Limited Confidentiality Agreement**

Complete if you have a teen that would like confidential sessions with Dr. Snow

I, \_\_\_\_\_, parent of \_\_\_\_\_, consent to allowing my teen confidential sessions with Dr. Snow. I understand that Dr. Snow will make sure that I am informed if my teen reveals information that she deems necessary to inform a parent of. I will allow Dr. Snow to use her judgement. I understand that it is in my teens best interest to allow this limited confidentiality and that I may send messages through the patient portal if I have a matter of concern that I would like Dr. Snow to discuss with my child, but Dr. Snow will not communicate with me via telephone or email without my child's knowledge. This will ensure that a therapeutic relationship may develop.
